

Eugene Golnev

Looking for a Python Developer
job in Poland

 Wroclaw, Poland

I am a Junior Python Developer with experience in Django and FastAPI. I have basic knowledge of the Python language and experience in developing web applications on the Django and FastAPI frameworks.

I am eager to learn and grow in the field of web development on Python, working under the guidance of more experienced developers and constantly expanding my knowledge and skills.

I am committed to applying my knowledge and skills as a Junior Python Developer in your company and contributing to the development of innovative web applications.
